注意

Carefully read instruction sheet before assembling. When you use glue or paint, do not use near open flame and use in well ventilated room. Keep out of reach of small children. Children must not be allowed to suck any part, or pull vinyl bag over the head.

Před započatím stavby si pečlivě prostudujte stavební návod. Při používání barev a lepidel pracujte v dobře větrané místnosti. Lepidla ani barvy nepoužívejte v blízkosti otevřeného ohně. Model není určen malým dětem, mohlo by dojít k požití drobných dílů.

# A Fokker D.VII (Alb), Lt. d. R. Günther von Büren, Jasta 18, Montingen, září 1918

Na tomto stroji létal poručík v záloze Günther von Büren, rodák z Berlína - Charlottenburgu. Nejdříve nastoupil k pozemním jednotkám, konkrétně k 2. Königlich Sächsischen Ulanen-Regimentu Nr. 18. Až v létě 1918 působil u Fliegerabteilung 31 a od srpna pak u Jasta 18. Tato jednotka byla nazývána Raben Staffel, podle svého velitele Augusta Rabena. Kresbu havrana (něm. der Raben) měly letouny Staffel namalovány v různých podobách na trupech. Přední část letounu Günthera von Büren je natřena červenou barvou, zadní pak bílou. Z dostupných materiálů není zřejmé, zda plátno na spodní ploše křídel zůstalo s potiskem lozence, nebo zda bylo také natřeno červenou barvou.

# B SPAD XIII, Lt. Frank Luke Jr., 27th Aero Squadron, září 1918

Jeden ze Spadů XIII, které používalo během září 1918 americké balonové eso Second Lieutenant Frank Luke, pilot 27. Aero Squadron USAS. Všech 18 potvrzených sestřelů, z toho 14 balonů, dosáhl Luke v době mezi 12. a 27. září 1918, kdy nakonec sám padl. Zobrazený Spad nese jedno ze dvou používaných kamuflážních schémat firmy Blériot. Frank Luke byl znám nejen jako vynikající stíhač, ale také jako zcela nedisciplinovaný sólista.
